

The logo for Sustainable Delmarva is an oval shape with a thin border. Inside the oval, the words "SUSTAINABLE" and "DELMARVA" are stacked vertically in a serif font, with "SUSTAINABLE" on top and "DELMARVA" on the bottom.

SUSTAINABLE DELMARVA

Regional Networking

Sustainable Delmarva's Regional Networking program is an on-the-ground stakeholder networking effort for the Delmarva Peninsula that promotes learning among stakeholders and builds meaningful relationships across political boundaries. In addition, the Regional Networking program will be the source from which a vision for a sustainable Delmarva Peninsula will emerge.

Communities in the region share similar advantages and challenges but often feel that they are alone in their community development pursuits. The Regional Networking program offers the infrastructure needed to create opportunities for members of communities through out the region to “cross-fertilize” and share knowledge, experiences and resources. Sustainable Delmarva intends to:

- Organize a centrally located annual networking conference for Sustainable Delmarva “alums” modeled after Future Search Network’s “Learning Exchanges”.
- Provide a tool for communities to participate in online conversations to discuss important ideas related to their locality and the Delmarva Peninsula
- Establish sub-regional Sustainable Delmarva groups that offer monthly World Café events to provide opportunities for rich and meaningful conversations
- Collect information from all of the networking events and post findings and common ground ideas on the Sustainable Delmarva website.
